

Special For Saturday

Working Waists, 50c Each

Three Styles to Choose From

Chambray, trimmed with white piping in round yoke effect, blue and gray, each, 50c.

Dotted Percale, open front, trimmed with Hamburg insertion, each, 50c.

Percale, in blue and gray stripe in white ground, trimmed with bias front, back and shoulders, each, 50c.

This is one of the best values in Waists that we have ever offered, and are a much better value than those that we put on sale a few Saturdays ago which, unfortunately, we did not have enough to go around. We have a good, liberal supply, but we would advise an early selection.

Note the Waists in our window.

Get Summer Beds Now

In the fall with winter coming on you may "get along" with the old "air-stopping" wood beds.

But a solid high headboard and footboard are not as comfortable in summer as one of those delightfully cool iron and brass beds.

They look delightful in a room full of summer sunshine—with their spotless white enamel and glistening brass.

They give free circulation to the cooling night air currents. Satisfying in appearance, comfort and price.

White and Colored Enamel Beds, brass trimmed, \$4.50 up.

Special Brass Bed—full size: two-inch Post; six Fillers; dull or polished finish, \$13.50.

Other Brass Beds, all prices, up to \$50.00.

Rugs That Reduce Temperature

Ben Franklin, one winter day, laid three large squares of cloth side by side on a field of snow.

The cloths were black and red and white.

After a few hours he removed the cloths and found that the snow under the black cloth had been melted completely; under the red cloth the snow was partly melted; under the white cloth the snow was not melted at all.

Black and all dark colors are warm, while white and the lighter tints are cool. They do not hold heat.

Light tinted rugs and draperies, therefore, are delightfully appropriate for summer.

They should be put on like a summer dress. They make you cool and comfortable.

An argument in favor of these summer comforts is their small cost.

Anyone can afford to enjoy this inexpensive luxury of summer things. New arrival of light weight Rugs for warm weather, in "Crest," "Birma," Fiber and Matting in small and carpet sizes.

"E-Z" Hammock

The Easiest, Most Comfortable Hammock Made.

The E-Z combines in one article the best features found in the ordinary style of Bed Hammocks, and also several new ones.

The body part is made in either Khaki, Green or White, of a strong heavy canvas.

The Back or Windshield has a bar at the top which keeps the canvas smooth and prevents sagging. By a simple adjustment the Windshield may be lowered, the bar making a suitable arm rest. These are both very desirable features.

The seat or bed portion is National spring fabric, galvanized links, attached to a tubing truss frame by helicals, making a very strong, resilient hammock, so easy to the occupant, that from this feature the hammock takes its name.

The E-Z is furnished with soft pad mattress, tufted, covered with either Khaki, Green or Red cloth, as preferred, and has a deep valance, giving a handsome decorative appearance that is very attractive.

There is no canvas under the National Spring bottom to catch and hold dust or dirt.

The truss underbody is curved upwards near each end, so that if desired the hammock may be placed upon the floor and used as a cot.

We anticipate a large sale on this Hammock. We now have this Hammock displayed on our floor on a tube frame, that affords an opportunity of trying the Hammock and realize the comfort obtained. A cordial invitation is extended to one and all to call, and inspect.

A little cool just now to talk Hammocks, but get one now and be all ready for the next hot wave.

We also have the best assortment of high-grade Swing Hammocks that we have ever carried. These also are displayed and ready for your inspection.

Wood ashes have many uses, and they should be sifted and kept in a bottle. Stains may be removed from tinware and crockery by this method, as well as those on window sills made by flower pots. Use a little warm water with the ashes. This is also excellent to clean brass, but must not be rubbed hard, or the ashes will scratch the polished surface.
